

COMPANY OVERVIEW

Fast, Secure, and Always Available DNS

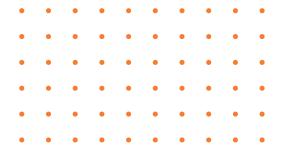

WHO WE ARE?

CloudDNS is a global leader in DNS hosting, offering fast, secure, and reliable solutions. With 65 Anycast data centers across six continents, we provide the infrastructure to keep your domains safe and efficient, serving over 1 million domains worldwide.

Founded in 2010, we've built a trusted platform for businesses of all sizes, enabling high-performance DNS management. Our cutting-edge technology ensures rapid, secure delivery of your online traffic, wherever you are.

COMPANY HISTORY

From our founding in 2010 to becoming a global leader in DNS hosting, we've expanded our network and services to better serve our customers.

2010

CloudDNS was founded with servers in Europe and North America, marking the beginning of our journey in DNS hosting.

2017

Expanded to all 6 continents, launching our Anycast DNS network and introducing the GeoDNS service.

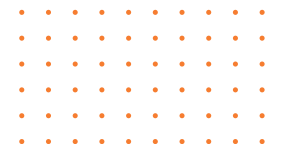

2021

Reached 50 Anycast DNS Data Center POPs globally, significantly enhancing our network's reach and performance.

2025

Expanded to 66 Anycast POPs and earned ICANN accreditation, marking a major milestone in our global DNS leadership.

OUR SERVICES

DNS Hosting

We offer reliable, secure, and fast DNS hosting solutions, including Free, Premium DNS, DDoS Protected DNS, GeoDNS with a global Anycast network to ensure high availability and speed.

Domain Names

.COM
.NET
